Reading

Read the passage and pay attention to the key words.

It is undoubtedly a fact that having unlimited desire is truly an **innate** human nature. We compare ourselves to others and always wish to have what others have. It is **hilarious** to note that we get so curious about the possessions our friends, family, and relatives have, the brands they are into, the size of their house, the place where they live, and even their lifestyle. Sad but true, we are so fond of longing for things we don't have instead of counting our blessings.

Comprehension Check:

- 2. What is considered to be an innate human nature?*
- 3. How does the writer express his opinion about endless human desires?*
